

Frank Lloyd Wright’s Graycliff 2026 Sponsorship Opportunities

2026 marks a transformative moment for Graycliff. After nearly 18 months of construction, our new Visitor Center opens to the public in March—expanding our capacity for year-round programming, education, and community engagement. This milestone also launches our Centennial Years, honoring a century of Frank Lloyd Wright's enduring legacy on Lake Erie.

As we celebrate this dual achievement—completion of our Visitor Center and the beginning of our centennial celebration—we're embarking on our most ambitious fundraising season yet. Your sponsorship will help us honor the past while securing Graycliff's future.

We invite you to partner with us through one of our 2026 Event Sponsorship opportunities. Your support will sustain our signature fundraising events, enable ongoing preservation and operations, and ensure year-round public access to this architectural treasure. Would you join us in making 2026 extraordinary? Your generosity demonstrates a meaningful commitment to historic preservation and ensures that Graycliff continues to inspire generations to come.

Summer Solstice Garden Party Fundraiser

It is believed that Frank Lloyd Wright intentionally designed the corner window in the “view room” of Graycliff’s main house to perfectly frame the setting sun around the summer solstice. We are excited to welcome the public to the property during this very special time of year and have the opportunity to celebrate Graycliff’s magic together!

The Market at Graycliff

The producer-only Market at Graycliff supports local vendors who strengthen our regional economy, with all products produced within the eight counties of Western New York. Visitors are invited to shop an exceptional lineup of makers and enjoy a self-guided tour of the restored main floor of Graycliff’s main house. Market admission is free, with a \$10 fee for self-guided house tours.

Centennial Season

In 2026, Frank Lloyd Wright’s Graycliff enters its Centennial Years, marking 100 years since Wright designed the Martin family’s summer home overlooking Lake Erie. This milestone honors Graycliff’s architectural legacy while celebrating its vibrant future, as we welcome a new Visitor Center and expand our role as a center for preservation, education, and community connection.
